Catalytic Converter Protection

Catalytic converter theft
deterrent and protection

**Easy to steal,
expensive to replace.**

The problem:

- Catalytic converter theft is at an all time high up over 1,215% from 2019 to 2022
- Thieves are targeting catalytic converters for their precious metals
- Can be stolen in minutes and have \$1,500 street value

The solution:

- Install a catalytic converter anti theft device, making your Catalytic Converter less desirable to thieves. (CARFAX recommendation)
- If the Theft Deterrent System on the catalytic converter fails to prevent theft during the program, we cover the cost of a Replacement Catalytic Converter, including labor and applicable sales tax, up to \$5,000 under Catalytic Converter Theft Protection Coverage.
